Foundation and Key Stage One

Significant individuals in the past who have contributed to national and international achievements.

Look at famous archaeologists, architects, doctors, inventors, pilots, potters, and sportspeople – useful for KS2 too!

4 minute short films which can be used to start discussions. Stop and start. Great for introducing chronology – BBC Bitesize:

Link to History Explorers unit The idea is to compare the lifestyle of at least two different explorers from different times. If possible also link to someone they might have heard of in the present time so that the KS1 can understand the changes in lifestyles e.g. Ellen MacArthur with Christopher Columbus and Chris Hadfield <http://chrishadfield.ca/> with Neil Armstrong and even earlier space astronauts (you could even include the first animals in space!)
